

Transforming the Future

International trade fair for technology and components for furniture manufacturing and wood processing.

Why interzum bogota?

- 1** interzum bogota, formerly known as Feria Forestal Mueble y Madera, is the leading international trade fair for wood processing and furniture manufacturing in the Andean Region, Central America, and the Caribbean.
- 2** It is the only trade fair in the region covering the value chain, from forestry resources to wood processing and furniture production.
- 3** It is part of an international trade fair family, led by its flagship event interzum in Cologne, Germany, the world's top event for furniture production and interior design.
- 4** The most important region's key decision-makers will be present in Bogotá.
- 5** Sustainability, design, innovation, and circular economy are the key pillars reflected in the fair's content.
